EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Allen C. Yun on 10-06-04.

The application has been amended as follows:

In the first line of Claim 41 and Claim 62, the term "A" was replaced with the phrase "An isolated."

2. The following is an examiner's comment: The amendment to identify the claimed protein in "isolated" form has been done to preclude the need to further prosecute the instant claims under 35 USC § 101 for failing to show the hand of man. The claimed protein without such an amendment reads on the protein in nature, which is not patentable subject matter.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 1635
